

MNxx05 44 Lb-In. And MNxx10 88 Lb-In. Non-Spring Return Direct Coupled Actuators

MNxx05/10 Series non-spring return direct coupled damper actuators providemodulatin, 2-position and floating control for air dampers, VAV units, air handlers, ventilation flaps, and louvers.

Overview

MNxx05 44 lb-in. and MNxx10 88 lb-in. Non-Spring Return Direct Coupled Actuators (DCA) are used within heating, ventilating, and airconditioning (HVAC) systems. They can drive a variety of quarter-turn, final control elements.

Applications include: Volume control dampers, mounted directly to the drive shaft or remotely (with the use of accessory hardware). Quarter-turn rotary valves, such as ball or butterfly valves mounted directly to the drive shaft. Linear stroke globe or cage valves mounted with linkages to provide linear actuation.

Features & Benefits:

- Declutch for manual adjustment
- Adjustable mechanical end limits
- Removable access cover for direct wiring
- Mountable in any orientation
- Function selection and service/off switch

Certifications:

- UL/cUL
- UL873 Plenum Rating, File No. E4436; Guide No. XAPX
- CE
